Creative Technologist | Experience Designer

Creative Technologist focused on designing interactive media experiences through the intersection of design and technology.

PROFESSIONAL EXPERIENCE

Freelance Graphic Designer & Brand Strategist | June 2018 – March 2025

Self-Employed – Augusta, GA

- Directed the end-to-end creative operations for regional clients, transforming conceptual project goals into structured brand systems and digital interfaces.
- Gathered and analyzed project requirements directly from clientele, successfully bridged the gap between client expectations and final production assets.
- Managed independent project timelines, software tooling configurations, and continuous design iterations under strict, self-imposed milestone deadlines.
- Maintained a six-year track record of business operations, project accountability, and proactive adaptation to evolving client technical needs.

Selected Works

- **Beyond the Credits | UX/UI Designer | Figma, FigJam**
Designed a high-fidelity streaming concept that connects collected film moments to their creative contributors.
- **Orbit | Creative Technologist | TouchDesigner**
Built a real time particle system that transforms a photographic portrait into a rotating three-dimensional composition.

SKILLS

- **Languages:** Python, C#, HTML5, CSS3
- **Technology:** Visual Studio Code, Figma, TouchDesigner, ChatGPT, Open AI Codex, Gemini, Claude
- **Design & Experience:** UX/UI Design, Interaction Design, User Flows, Visual Systems
- **AI Assisted Workflows:** Agentic Design and Development, Prompting, Rapid Prototyping, Iterative Testing
